St. Athanasius Academy

Cooperative Partnership, Catholic Identity

St. Athanasius Catholic Academy's mission is to provide an atmosphere where students' intellectual abilities and talents are fully developed.

Through various experiences, it is the Bensonhurst academy's conviction to enable students to encounter Christ in every aspect of their lives. There are opportunities to encourage students' creativity, responsibility, scholarship, leadership and citizenship.

Building a cooperative partnership with both family and community ensures a caring and safe environment.

The Way of Jesus

As a Catholic academy, St. Athanasius' most outstanding quality is its Catholic identity. It is the underlying theme in all that happens each day. In words and actions, the school community teaches and lives the ways of Jesus Christ, the Master Teacher, to all who enter its doors.

The student body prays together through morning prayer, decades of the Rosary and dedication to saints. The school attends Mass, prayer services in classrooms and church, and special events centered on

the faith formation of the students. Priests conduct weekly classes for students and are very present to the children every day.

Offering grades nursery through eight, St. Athanasius Catholic Academy serves children from Brooklyn, Staten Island and even Queens. The school excels because it has strong, dedicated teachers, priests and staff. The academy follows New York State Common Core standards, with New York State-certified teachers.

The facility also has a brand new STEM Lab, SMARTBoards, Chromebooks and iPads for all grades; and a full gymnasium, auditorium and outdoor recreation area. All classrooms are air conditioned.

The school offers free full-day pre-kindergarten, Italian, art, a full-time academic intervention room, Title I services five days a week, SETSS teachers, speech intervention services, two school psychologists and a guidance counselor.

Students also learn the importance of giving service. The student council collects food for the parish food pantry. They also visit the local hospitals as part of their service projects.

Saint Saviour Academy

A Balanced Curriculum to Nurture Each Child

Saint Saviour Catholic Academy in Park Slope prepares students from nursery to grade eight for higher education. Children from all walks of life are educated in a nurturing and supportive Catholic environment.

Beginning in the early childhood program, teachers create an exciting, developmentally appropriate curriculum encouraging children to explore their world through hands-on activities. Elementary grades offer a balanced curriculum of rigorous academics and a vibrant arts/music program paired with the spiritual teachings of Catholicism. Technology, including SMART Boards, computers and tablets are integrated throughout the elementary grades along with a 1:1 Google Chromebook program in the middle school.

The academy believes that education encompasses the academic, social and spiritual needs of the learner and tries its best to differentiate instruction to support various learning styles and needs. In addition, student success is often dependent upon how children feel socially within a classroom. If they feel safe and comfortable in their classroom community, they will be

willing to take risks and share ideas with one another. To this end, the academy has implemented the Responsive Classroom Approach, which centers on positive language to maximize learning and consistency among classrooms.

The academy is located in the heart of Park Slope, an area known for historic buildings and architecture, diversity, cultural attractions, proximity to Prospect Park and convenient access to public transportation, which the academy uses to enrich the curriculum. Second graders attend swim lessons at the Prospect Park YMCA. Sixth through eighth graders enjoy physical education enrichment at the Park Slope Armory YMCA. Students have also participated in programs such as the Shakespeare Residency at The Brooklyn Academy of Music and Brooklyn Connections at The Brooklyn Public Library.

Together with parents and guardians, the dedicated and experienced faculty helps each child develop a positive self-image in order to reach his or her highest potential. Each year, graduates receive thousands of dollars in scholarships and place into top public, private and Catholic high schools.
