

St. Andrew Avellino Academy

A Home Away From Home

St. Andrew Avellino Catholic Academy's mission is dedicated to living the principles of the Catholic tradition rooted in the Gospel of Jesus Christ which allows students to learn to serve God and others, to develop their unique talent and skills, to strive for academic excellence and to become lifelong learners.

St. Andrew Avellino is a Catholic Academy in Flushing, and home to over 300 students, ranging from nursery through eighth grade, and also including a Tiny Tot program. Students take pride in attending church on a weekly basis and reaching out to the community and providing community service. The academy offers a great education enabling each student to reach his or her highest potential. Eighth-grade graduates were recently accepted to the Catholic high schools of their choice and many were accepted to specialized high schools.

Academy students shine academically,

earning top scores in Terra Nova and state testing. Students enjoy both music and art as a part of the daily curriculum, or take part in one of the afterschool programs. The students are exposed to afterschool music ensembles such as chorus, percussion, strings, piano, guitar and beginner or advanced band. The art program hosts an annual exhibit where all are welcome to experience works of art created by students of all grades. A full-size gymnasium allows students to enjoy a much needed physical education program,

as well as offer a home to many team sports, such as soccer, volleyball and basketball. An enriched afterschool program includes chess, debate, an enhanced science program in a brand new state-of-the-art STEM lab and robotics.

Faculty and staff, along with parents, strive to make the school a safe and positive learning environment.

St. Stanislaus Kostka Academy

Taking Catholic Education to the Next Level

Located in Maspeth, St. Stanislaus Kostka Catholic Academy of Queens is a Catholic elementary academy serving students in nursery through eighth grade. The curriculum meets the New York State Common Core and Brooklyn Diocesan Guidelines.

By its nature, the academy strives to give students a firm foundation in Christian doctrine and values and provide them with a safe environment with enhanced security.

Students in kindergarten through grade eight attend classes in art, library, music, physical education, Spanish and technology. Students are provided iPads through a one-to-one iPad program for third through eighth graders, and there are interactive boards in all classes.

This year, St. Stan's Players will celebrate their 10th anniversary with a production of "Annie."

St. Stanislaus Kostka has a before school program that begins at 7 a.m., along with an afterschool program that operates from dismissal until 6 p.m. every day that school is in session.

St. Stanislaus' teachers are caring pro-

fessionals who help each child reach his or her potential.

The Home Academy Association works with staff to coordinate activities for the physical, educational, social and spiritual enrichment of the students. Each student is unique and knows that he or she is valued and respected.

Graduates from the school have been accepted into all Brooklyn and Queens Catholic high schools, in addition to Regis, Xavier, Dominican Academy, St. Vincent Ferrer, Bard, Stuyvesant, Brooklyn Tech, Bronx Science, Frank Sinatra School of the Arts and Townsend Harris.

St. Stan's is excited to announce that plans have been put in place for a STREAM Lab to be built for the 2019-2020 school year. St. Stan's has long been a STREAM school – emphasizing the learning of science, technology, religion, engineering, arts and math – and a state-of-the-art center will soon take that learning to the next level.

Prospective students and their families are invited to visit and see for themselves the wonderful things that are happening at St. Stan's.
