Our Lady of Hope Academy

Fostering Spiritual and Academic Development

The mission of Our Lady of Hope Catholic Academy is to provide a Catholic education that fosters the spiritual and academic development of each child. The responsibility for academic and spiritual growth is a shared endeavor among students, parents, faculty and administration in this Middle Village academy.

Early Childhood Programs

Aside from a full academic and religious program throughout the academy, Our Lady of Hope offers a rigorous early childhood program for children in nursery, pre-kindergarten and kindergarten with the emphasis on literacy and basic math skills, along with hands-on learning opportunities for creative expression. The staff provides learning experiences appropriate for each grade level with the goal of helping children develop to their highest potential in a manageable class size. The students have full access to tablets and Chromebooks to enhance interactive learning.

Encouraged to Excel

Our Lady of Hope focuses on inspiring a love of learning in its students. It

strives to meet the intellectual needs of all its students to create a challenging atmosphere where all are encouraged to reach their fullest potential. The school enrolls over 600 students and benefits from a diverse national population. Our Lady of Hope continually updates its academic curriculum and standards in accordance with New York State regulations to keep its students learning at a rigorous and advanced level. Each classroom is equipped with SMART Board technology, WiFi access, Chromebooks and tablets.

Arts, Foreign Language, Clubs

The school offers art, music and foreign language classes as well as a variety of academic and social development clubs after school. Our Lady of Hope participates in the National Junior Honor Society (middle school) and a Siena Club (part of the Aquinas Independent Study Program) as enrichment programs for hardworking and conscientious students in seventh and/or eighth grade. Our Lady of Hope also participates in the Catholic Youth Organization sports program and a Youth Ministry Group.

St. Kevin Academy

Faith-Filled Community, Educational Excellence

Are you looking for an outstanding place for your child to learn and grow intellectually and spiritually?

St. Kevin Catholic Academy in Flushing is an educational community of faith and commitment, and may be the place for your child!

St. Kevin's offer a safe and welcoming environment for nursery through eighth-grade students. Teachers work with children to provide opportunities for serving others, building moral character and encouraging spiritual development.

For more than 70 years, St. Kevin has been educating elementary and middle school students, who are taught to be thoughtful, community-conscious individuals. Students receive caring instruction, not just in literacy studies and math, but also in religion, art, music, physical education, technology and Spanish.

Teachers challenge each child to reach his or her highest potential using the Common Core Standards-based curriculum. Junior high students are prepared for success as they enter high school.

Classrooms are equipped with

SMART Boards and students have access to iPads and one-to-one Chromebook technology.

A new STREAM Lab, featuring the Lab Learner system, is equipped with resources that allow students to supplement classroom experiences through problem solving and project-based activities to develop deeper levels of understanding of science, technology, religion, engineering, arts education and mathematics.

Additionally, kindergarten through eighth-grade students receive sacramental preparation, and are encouraged to participate in choir, band, orchestra, Catholic Youth Organization (CYO) sports and scouting programs that apply to their age.

The school also offers full- and half-day nursery classes (age three), and a free, full-day Pre-K for All Program, which includes breakfast and lunch. Before and after-school programs are available for all students.

Come for a tour today! Shadow days can be arranged for middle school and junior high students. Call 718-357-8110 for more information.
