

# St. Elizabeth Academy

*Empowering Self-Reliant Catholic Leaders*

St. Elizabeth Catholic Academy, located in the multi-ethnic, urban community of Ozone Park, empowers students to grow and develop values academically, emotionally and spiritually in a safe and disciplined environment. The academy proudly provides a foundation where a love of learning, a desire for self-reliance and a passion to live faithfully are championed. Last spring, St. Elizabeth received accreditation from AdvancED.

The administration and the teachers of St. Elizabeth are extremely proud of their students. Our graduating class of 2018 earned more than \$225,000 in high school scholarships. Classroom teachers work tirelessly to meet the needs of all students from pre-kindergarten to eighth grade.

Through a partnership with DeSales Media Group, all students have their own iPads to use in school. These devices make it possible for students to develop 21st-century skills. The academy is also working toward using the devices to help personalize instruction for students.

In addition to a rigorous academic program, the academy also offers Spanish,

computer, art, music and physical education classes.

The academy offers an accelerated program that prepares middle school students to take both the Integrated Algebra I Common Core Regents as well as the Earth Science Regents.

For students who need extra educational support, the academy has Title I services in literacy and math, ELL services, full-time SETSS teachers, speech therapy and guidance counselors.

St. Elizabeth Catholic Academy is proud of its Catholic heritage and students have many opportunities to live their faith. Students attend Mass often and participate in many other religious ceremonies.

This year, students have shown their Christian charity in many ways; they have collected food for local pantries, donated items to Hour Children for Christmas and donated coats for the needy. Each year, the school choir entertains residents at a local nursing home.

Prospective families are welcome to come visit and see what the academy has to offer.

# St. Francis of Assisi Academy

*Work Hard and Serve the Lord Enthusiastically*

St. Francis of Assisi Catholic Academy (SFACA), located in the vibrant and culturally diverse neighborhood of Astoria, is proud to be opening its doors to Learn, Serve, Lead and Succeed during this 2018-2019 academic year.

SFACA is deeply motivated to exist in a caring community that is firmly committed to its mission of developing a way of life rooted in Christ and a Catholic vision that provides inspiration and identity to all of its members.

This desire has led academy partners to choose and embrace the academy's 2018-2019 theme: Work Hard and Serve the Lord Enthusiastically.

#### Success For All

The academy's goal of "Success For All" inspires a curriculum that supports students' strengths and helps them maximize their full potential. By modeling and instilling commitment, passion and perseverance, students are set for success.

Through progressive instructional practices and a solid work ethic, the academy supports Carol Dweck's idea of a

growth mindset that suggests children's basic intellectual abilities can be developed through dedication, commitment and hard work.

#### Smart, Creative, Resourceful

This rapidly changing world requires students to be creative, innovative, inventive, artistic, tech-savvy and resourceful. Therefore, the academy programs are designed to educate the whole child in academia, STEM and the arts.

The teachers and faculty at the academy know that the spiritual, emotional and social well-being of each student is essential to their growth and is, therefore, reflected in every aspect of each child's educational journey at SFACA.

It is the mission of St. Francis of Assisi Catholic Academy in Astoria to model its patron saint as it forms, informs, and transforms students in the image of the Creator.

SFACA strives to reach the heart of every student within its walls, so that each of their lives – and the lives of all those they touch – may be better.
