Sheepshead Bay to Host All-Water Summer Camp

Come on in, the water's fine!

Camp Maritime will again conduct its all-water summer camp program for children ages seven-15 at a private dock and practice facility, located in the heart of Sheepshead Bay, from June 25 to Aug. 31.

This first and only camp of its kind will provide an academically sound youth development and leadership program, blending nautical activities, science, wellness, nutrition and fun.

At the camp's private dock and practice facility, campers will discover and master the fundamentals of kayaking, stand up paddle boarding, fishing, sailing, motor boating, and more!

The fleet consists of a sail boat, Sea Ray Sundancer 3350, a 30 foot pontoon boat with slide and trampoline, kayaks, stand up boards, windsurfer kits, surf boards and jet skis. The camp provides wet-suits, helmets, life jackets, and aqua shoes.

All campers wear life jackets and helmets at all times, and are supervised by licensed instructors, as well as pediatric CPR/First Aid-certified trip leaders on every activity.

All counselors are certified beach and surf lifeguards. There is a maximum five to one camper to counselor ratio.

In addition, Camp Maritime has outdoor eating areas, waterfront-viewing area for parents, an indoor facility for learning with eight smart screen technologies, private meditation room and recreation area.

The curriculum is based on experiential student-centered, discovery learning – focusing on unique subjects like math, science, leadership and seamanship.

Taught through concrete, interactive nautical situations in small groups, the camp is led by positive, responsible educators, U.S. Coast Guard licensed captains and seaman, certified lifeguards, and pediatric CPR/First Aid-certified trip leaders.

Cost of tuition covers a nine-hour day; certified instructors for all activities; two organic, local gourmet meals daily; all-day hydration protocols; exercise; STEM lessons; and all trips and equipment.

The all-water summer camp has the option of a 10-week, five-week or two-week program. Door-to-door pick-up service can be arranged.
